DOES DIVINE KEMET'S DIVINE SPIRITUAL MIND COME FORTH IN-PERSONS IN THE WEST, NOW?

### TOPIC:

HOW & WHY THE WORLD'S COSMIC ASTRO-MYTHOLOGICAL BIBLICAL STORIES IN OUR MOST ANCIENT KEMET'S DIVINE MIND'S ASTROLOGICAL/ZODIACAL/ASTRONOMICAL MYTHOLOGY/THEOLOGY/ESCHATOLOGY OF OUR CYCLICAL COSMIC TIME-MIND CALENDAR CREATE OUR WORLD

### DI-AMEN DE-MER'S THESIS STATEMENT WHICH DRIVES THE REVIEW AND DISCUSSION:

*As modifications of the Primordial Consciousness that emerged from the Primordial Undifferentiated Matter known as the watery abyss of Nun, it is vital to the ascension of our collective consciousness that we realize our duty to traverse the multidimensional realms and planes of creation with the full expression of our Divine Qualities and Power. To achieve this, we must acknowledge that the drama of life is intended to expose us to challenges that are meant to inspire us to develop those Divine Faculties that are necessary to overcome the challenge. Every authentic effort to invoke Spirit in the face of challenge in life will be cemented within the codes of our genes. We will begin to access and express our Divine Potential as our actions influence the expression of dormant genetic codes. The animal dominated neo-cortex will be overtaken by the functions of the pre-frontal cortex, which houses our higher mental functions. The understanding that all things and events are for our higher good and development, therefore, nothing can be against us. As we traverse through the Milky Way approaching the brilliant dark-bright center, Consciousness will return to its full awareness and creation will be eternally enjoyed. For now, we must make the greatest effort to combat isft in any form contrived by the forces of Sutekh. As the original guardians of this Logos we call Earth, it is our duty to restore "Balance" and "Order" without becoming agents of isft ourselves. The chief objective of all events within our lives is to awaken our Divine Power and perfect our use of Creation*

## **THE CONCEPT OF MA'AT UR HEKA COSMIC CONSCIENCE-CONSCIOUSNESS DIVINE SPIRITUAL PENETRATION KRST—CHRST/CHRIST—INTELLIGENCE IN-PERSONS**

*Ma'at Ur Heka's guiding principles of moral living in-persons* offers via a single nTr Netjert—Ma'at Ur Heka In-Persons—as a compendium of Kamite Afrakan ancient and modern sacred spiritual science and ancestral enlightenment wisdom for personal cultivation, inner mediation, and self-correction. Ma'at Ur Heka provides guiding principles for living with purpose and dignity.

*Ma'at Ur Heka respects and embraces lovingly the religious and spiritual belief systems of the whole of humanity!* Ma'at Ur Heka is about the genesis of the roots of Judaism (Talmud, Torah) and the Hebrews; the origins of the Cosmic Solar Christ's Christolatry and Christianity (The Holy Bible, and its New Testament); and the Christian Eurasians; and the foundation of Islam (The Holy Qur'an, and the Hadith), and the Arabs of the Arabian Peninsula.

In the West, the scholars and scientists of our western world's revered literature wrote and assembled their books in the Levant, Rome, and the Arabian Peninsula. This esteemed religious and spiritual literature came forth called the Hebraic Torah, the Eurasian Holy Bible, the Arabian Holy Qur'an. In this Way, this Biblical western scholarship of this revered literature created their religions. The moral, religious, and spiritual ideas captured and contained in these holy books are considered sacred scriptural emanations from the Lord God Almighty that were prophetically revealed exclusively to the prophets of the Lord God Almighty.

On the one hand, those Biblical western scholars and scientists made their morality supreme. On the other hand, the followers of those Biblical western scholars and scientists' revered literature started armies for conquering and enslaving nearly two-thirds of the world. In all, the Biblical western scholar, scientists, and followers excluded other, and far more ancient worldwide moral, religious, and spiritual ideas that the western scholars and scientists didn't write in their revered literature. Thus, the Biblical western followers belittled as inferior, pagan, or infidel other, and far more ancient worldwide moral, religious, and spiritual ideas.

**As captured and illustrated below in the Papyruses of Ani and Hunefer, Ma'at Ur Heka African morality, ethics, and sacred spiritual science antedated the emergence of the Hebraic Torah, Eurasian Holy Bible, and Arabic Holy Qur'an by thousands of years. Moreover, in these papyruses Kemetologists and Egyptologists have found the genesis of the roots of Judaism, Christianity, and Islam's moral, religious, and spiritual ideas.**

### **Discussion Questions:**

- 1. Could the world of humanity now accept this fact?**
- 2. Or, could the whole of humankind accept this fact, assimilate it, and restore Ma'at Ur Heka Afrakan sacred spiritual science and ancestral wisdom for inner reflection and self-correction?**
